# TABLE ROLLER

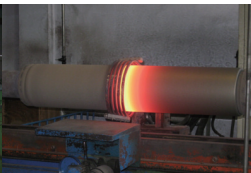

The table rollers workshop covers an area of 40000 square meters, building area of 10000square meters, Existing staff of 180 people. Our workshop has produced laminar cooling table rollers, all kinds of table rollers for strip rolling lines, pinch rolls, looping rollers, etc.; For the cold rolled and galvanizing rolling line, we have produced tension roller, sink rolls, furnace rolls, and other rolls with spray welding layer and overlaying layer.

The technical team consist of many experts in the field of spary. After tested many brands of spray in the domestic and abroad, we final selected the spray material from the company of Deloro Stellite Co., Ltd. We and Stellite work together to improve the original spray material to adapt to our spray production process. Now, the average working life of our spraying rolls are 40 months, the highest record is 5 years.
